The Great Tonic and Blood Purifier-Cures Indigestion, Dyspepsia and Catarrh.

It is a trite and true saying that the "blood is the life." Now where does the blood come from? Everybody knows, or should know, that it comes from the nutritive elements extracted by the stomuch from the food we eat. If the digestive organs do not perform their functions by reason of disease germs, there is no nutrition extracted, and the food nilght better be thrown in the dump to decay and breed germs in the open air than to remain in the stomach and become a rotten, putrid mass, as it naturally does il there is no digestion. No disease germ can live and find lodgment in a human body that uses the Shotiner's Sure Cure, Price \$1.00.

Many men and women are constantiy subjected to what they commonly term "a continual strain" because of some financial or family trouble. H wears and distresses them both mentally and physically, affecting their nerves indly and bringing on liver and kidney nilments, with the attendant evils of constipation, loss of appetite, One lundred lealherworkers are on sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's Angust Flower. But as a last re-nort I was persuaded to try a set of the aort I was persuaded to try a set of the Cuticura remedies, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Scap, using a soft plece of muslin cloth. This I did twice a day, each time following with the Cuticura Cintment, and at the same time gave the Resolvent, according to directions. One box of the Cintment and two bottles of the Resolvent, together with the Soap,

The first step in the treatment of the chrunic forms is to remove the scales and crusts and actien the skin, by warm baths with Cuticura Soap. These commissioners and election officers conld be fair, honcet men, or rascals, whichever the commissioners wanted them to be. But whichever they were, every contest for an office, -city, county, district or state, had to come before one or the other of the boards until the offices of governor and itentonant governor were reached. Contests for these offices were to be declaed by the legislature, but who the members of the legislature were when it convoned depended solely on the election commissioners who issued the certificates of election.

The contest for governor and lientenant governor therefore depended on the legislature, but the complexion ot the legislature at its organization depended on the election commissioners appointed under the Goebel law. Contests for seats in the legislature came before the legislature, but who decided anch contests? The legislature itself-those members who held certificates of election ohtsined from Goebel election commissioners, two ont of every three of whom were Demoorats appointed on the recommendation of, and by, Goebel men. Goebel men secured certificates of election to

the legislature from Goebel commis-The Paducal Sun. sloners, Goebei men voted on contests for sents in the legislature and scated Goebel men, and then the Goebe legislature seated Goebei himself.

The Goebei law was only a measure to give the Democrate complete control of the state, and It did it from governor down. It left nothing to cinnee. It allowed men in the legislature to threw out the vote of Jefferson county when it was hy this very vote that they held seals. It enabled them to say that the vote should not he counted because of "frand und intimidation," when it was the very same vote by which they cisimed title to the seat in the assembly they were then occupying, und of which they were ahusing the prerogatives to the extent of overthrowing the will of ever 100,000 voters in Kentneky. The people of Kentocky knew too much about the Goebel law to be footed by snoh statements as made by Judge McQnown.

The Lonisviile ileral: took the hitte off the Conrier-Johnnai about that McQnown defense of Kentneky Democracy in a way to provoke a quick and awful howl. The Republicans of Kentucky want the marderer of Senator Goebei punished, but they don't approve of the effort to punish men they believe to be innocent. The Democrats claim that certain men are guilty, and rely on the perinred testimony of their own paid witnesses, and the bought "confession" of ilenry Youtsey, a man who has told a vitriety of lies about the case and sworn to ail of them : one of the first victims Personally appeared belore me this of the Demouratic conspiracy to day B. Whether or not the evidence was enthcient to convince the Demo cratic juries "beyond a reasonnole dinht" was a matter of intelligence and conscience on part of the jury, and the court of appeals could not decide whether or not the evidence was mannfactured and perjured. ANOTHER LETTER

PROF. JOHN DEAN RECEIVES COPY OF GAME LAW OF ILLINOIS.

It seems from another feller received by Prof. John Denn from the game warden of Illinois that non-resident hunters are really required to pay the \$15 license to hunt in Hilools. Paducah sportsmen are interested because they often hunt across the river, hot do not bunl enough to justify the expenditure of \$15. Prof. Dean today received a copy of the game laws, embodying provisions relative to the license. It is very strict, and even gives officers of the law a right to search anspects for game.

Local hunters are disappointed, but still have a gieam of hope, as the statements recently seen in the litinois papers said that a part of this game law had been knocked out by the sn preme court. This could have been done and the isws still appear in its original form in the copies of it priot. ed for illstribution, one of which was sent to l'rof. Dean. It is therefore possible that the section about 11. croses was knocked out after the copy of the iaw sent here was printed.

Charles Hittiard, charged with stealing \$18.75 from William Howell, the naloon keeper at Seventh and Trimbie streets, was granted a continuance until tomorrow in coort this morning.
